# Financial Disclosure Statement

I do not have any financial relationships relative to the content of this program

# About Scent Imprint for Dogs

- Locations in Amsterdam & Atlanta
- Founded 2013
- Military and law enforcement K9s
- Over 63 dogs in operation between service dogs and K9s
  - Aruba
  - Israel
  - South Africa
  - U.S.
  - Germany
  - Italy
  - Russia
  - Nigeria
  - Turkey
  - Netherlands

# How It Begins

- First contact - the client
- Service dogs can also be trained to assist with:
  - Autism
  - Epilepsy
  - Mobility
  - PTSD

# How It Begins

- Training objectives and plan
- The "on-off" schedule

# Puppy Selection

# Detection

- Three phases in detection
  - Search
  - Indication
  - Reward

# Learning The Target Scent

Step 1

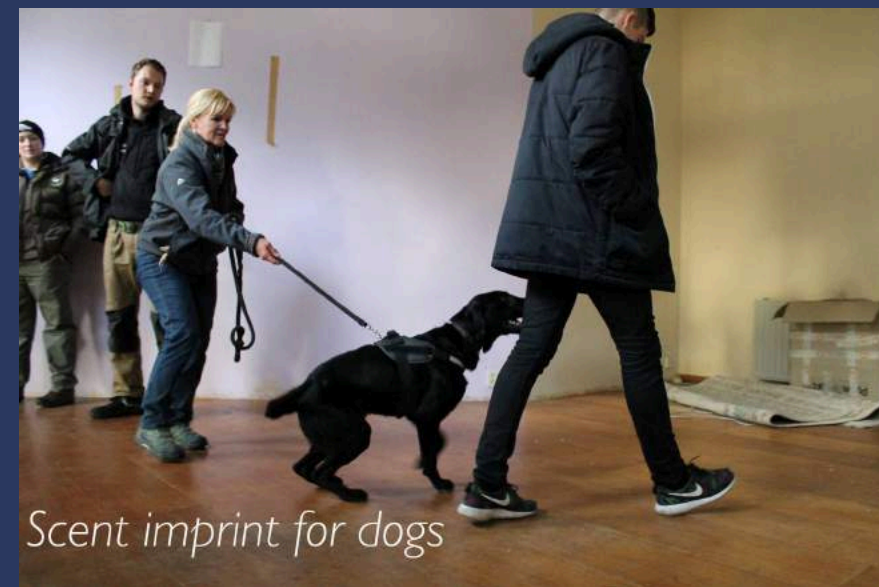

Step 2

Step 3

# One Week Into Scent Training: Thor

**Max** SERVICE DOG

# The Diabetic High Alert: Pawing

- Alerting with a paw when a diabetic's level is high

# The Diabetic Low Alert: Nudge/Given Response

- Alerting with a nudge/given response when a diabetic's level is low

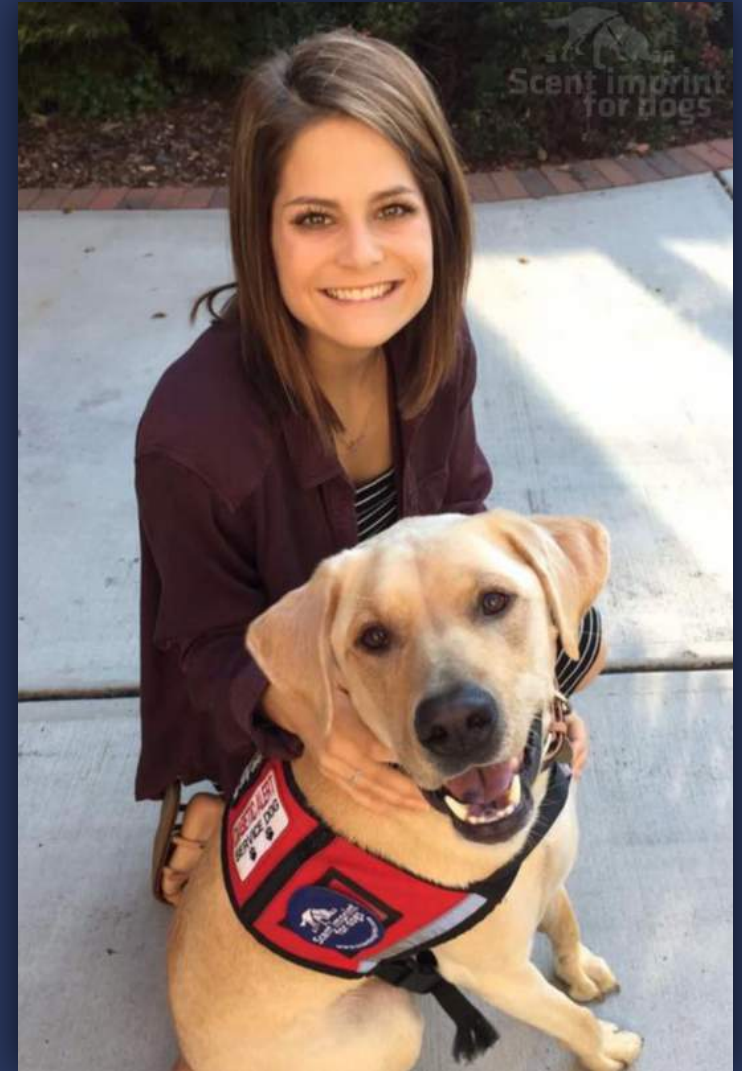

# Beyond Scent Imprinting

- S.I.F.D. training goes beyond just imprinting scents when we train. Our dogs are trained to have more confidence, dexterity, and obedience as well.

# Julia & HUDSON

“Hudson has changed my life by making me feel safer and waking me up in the night if I need it.”

# Cynthia & MEMPHIS

“He's the sidekick I never knew I needed and I can't imagine life without him.”

# Why Diabetic Alert Dogs?

# Thank You
